## MISSIONS

**Mission 3028-01: Cover our Landing**  
**Landing Site Beta, Shaula**  
**September 3, 3028**  
**Pilot Skill: 3-4**

Okay boys, listen up! By now I'm sure the scuttlebutt has gotten around that we're now officially in the opening phases of what historians are certainly going to call "The Fourth Succession War". Rumor has it that ol' Hanse Davion announced that he was giving his new bride all of the Capellan Confederation at their wedding. Something like that anyway - I wasn't there. I'm sure my invitation just got lost in the mail.

So naturally, you're asking yourself, "What does that have to do with us? We're still working with the Lyrans". Well, it turns out that old Hanse earned his nickname of "The Fox", and planned the whole thing in advance. While he's sending his units to gobble up the Confederation, he's got his new mother-in-law launching a big ol' offensive across the entire Lyran/Combine border. To that end, we've been seconded to the Lyran Militia to attack this world of Shaula. No, I'd never heard of it either. The Kell Hounds and other famous units get to hit the interesting places, while we get... Shaula. At least the invasion has a cool name - OPERATION GOTTERDAMMERUNG.

Anyway, I know the trip down was a tad bumpy, but we are now planet side. The Lyrans are behind schedule offloading their troops so we have been tasked with covering the initial landing operations here on Shaula so the support teams can get their 'Mechs off the drop ships and into the fight.

Intel suggests that the Dracs are sending out a heavy Recon unit complete with close air support to probe our landing areas to try and strike us quickly before our friends can get the rest of their boys and girls unloaded and into the fight. Our job is to head out to Map Grid Whiskey and find that unit and keep them from the rest of the gang while their pants are down. We really can't afford for this recon in force to get into our rear area and harass the landing teams. Knowing the Dracs, when you *do* find 'em, they're likely to want to mix it up rather than just run past you, so use that to your advantage.

Any questions? Good, now mount up and keep those damn Snakes out of our rear.

**Map:** This mission takes in rolling foot hills. Use four maps from the Grasslands Map Set to create a 2x2 map sheet area for play. If unavailable, pretty much any terrain broken up with hills and scattered woods will be fine. When using standard Mapsheets, make sure to break up the corridor that runs up the center of the map with additional terrain (hills and/or trees).

### Recommended Maps:

- 1: 2018 Woodland
- 2: Open Terrain 2
- 3: 2018\_01 Front Open Terrain 3
- 4: 2018\_03 Back Foothills 2

**Setup:** The top edge of the map represents the players' "Home Edge", behind which is the landing zone and the vulnerable dropships. The bottom edge represents the Combine's "Home Edge". Both sides will enter from their respective sides on turn 1.

### Special Rules

**For the Dragon!:** All OPFOR 'mech pilots have the Bushido PSA.

**Might as well Jump (Secret - don't tell players in advance):** On turn four, a Heavy Tracked APC with 1 platoon of Jump Infantry enters the board. It's objective is to move as fast as possible past the Player's home edge sticking to the flat terrain as much as possible to deliver the infantry behind the lines to act as artillery spotters. It will not fire unless a Player's unit is directly in its path. If it is destroyed or otherwise immobilized the Jump Infantry will dismount if possible and disengage and move at best speed towards the player's edge. The Infantry will surrender if the APC is destroyed/immobilized and there is a non-crippled PC 'mech within three hexes. When the APC enters, read the following to the players:

"Okay boys, listen up! It appears as though the Snakes have a bunch of artillery in the area that they'd really like to use against our fragile dropships. It seems that there's a bunch of spotter infantry headed your way. If they get those past you they could really ruin things in our backfield. So don't let 'em. That is all."

This will unlock the additional bonus objective. Do not tell the PCs about it before the APC appears.

**Rules of Engagement (GM Only):** Enemy OPFOR is made up of Militia units desperate to prove their honor to the Dragon. Because of this, they won't simply run past the PCs, but will instead attempt to engage them before making a break for the far side. No Combine pilot will attempt to leave on the PCs home edge until it has declared Bushido against a PC and either destroyed or reduced his speed to less than half of its initial value. The Combine pilot may ignore this rule if his Bushido target moves (and stays) out of his line of sight or out of his max range for three turns (they do not need to be consecutive) after Bushido is declared. Feel free to roleplay accordingly: "The Kurita Pilot radios that you are an honorless dog, not fit for his time",

that sort of thing, but don't let the PCs know the exact mechanics.

**Enhanced Bushido (GM Only):** The Combine pilots are so desperate to prove their honor that none of them will declare a PC 'mech that is already the target of a different Combine pilot's Bushido ability. Combine pilots that attempt attacks against PCs that are not their Bushido target - regardless of whether or not they've declared Bushido yet or not, suffer a +1 penalty. This means that if a pilot has declared Bushido against a target, he'll have a +2 penalty to attacks against other PCs, and at the beginning, some Combine pilots may not have an available Bushido target, and will make *all* attacks with a +1 penalty.

**Non-Mech OPFOR:** For balance purposes, consider pairing multiple non-'mech units as a single "Unit" for initiative purposes, or pair up non-'mech units with 'mechs to avoid using the low-BV units as initiative sinks.

**Mission Objectives:** Prevent more than one enemy 'mechs from escaping off of the Players' home edge.

Award (C-Bills)	Mech Survived	Mech Severely Damaged	Mech Destroyed
No more than one enemy 'mech advances off of the Players' home edge (Success)	350,000	250,000	100,000
No Enemy 'mechs advance off the Players' home edge (Bonus Objective)	+100,000	+100,000	+100,000
More than one enemy 'mechs escape off of the Players' home edge (Failure)	150,000	100,000	50,000
Prevent the artillery spotters from advancing off of the players' home edge (Bonus Objective)	+100,000	+100,000	+100,000

Award (XP)	Pilot Survived	Pilot Killed
No more than one enemy 'mech advances off of the Players' home edge (Success)	15	5
More than one enemy 'mechs escape off of the Players' home edge (Failure)	8	3
Opposing 'Mech/Combat Vehicle destroyed by party (Max 5) (each)	+1	+1

### Additional Rewards

#### Missing Spotters

*Hey boss? I just stepped on some guys with binoculars and a radio hiding in the bushes. I hope they weren't important...*

Cross off this reward to add a +2 penalty to an enemy Artillery attack roll. May be used after the roll is made.

**GM Note:** Cross off this reward if at least half of the jump infantry advance off of the players' home edge.

\*A result of 2 or 12 (or an 8 if the attack strikes the side) may inflict a critical hit on the VTOL. For each such attack, apply damage normally to the armor in that section. The attacking player then immediately rolls once on the VTOL Combat Vehicle Critical Hits Table, below.

†Damage Value / 10 (round up); see *Rotor Hits*, p. 197, *Total Warfare*. Additionally, damage to rotors slows down the VTOL. Each hit reduces the VTOL's Cruising MP by 1, meaning that the controlling player must also recalculate Flank MP; multiply the new Cruising MP by 1.5 and round up. As with all damage, such movement penalties do not apply until the end of the phase in which the damage occurred.

11	Turret	Turret	Turret
12*	Turret (critical)	Turret (critical)	Turret (critical)

\*A result of 2 or 12 (or an 8 if the attack strikes the side) may inflict a critical hit on the vehicle. For each result of 2 or 12 (or 8 for side attacks), apply damage normally to the armor in that section. The attacking player then automatically rolls once on the Ground Combat Vehicle Critical Hits Table below (see *Combat*, p. 192 in *Total Warfare* for more information). A result of 12 on the Ground Combat Vehicles Hit Location Table may inflict critical hit against the turret; if the vehicle has no turret, a 12 indicates the chance of a critical hit on the side corresponding to the attack direction.

†The vehicle may suffer motive system damage even if its armor remains intact. Apply damage normally to the armor in that section, but the attacking player also rolls once on the Motive System Damage Table at right (see *Combat*, p. 192 in *Total Warfare* for more information). Apply damage at the end of the phase in which the damage takes effect.

‡Side hits strike the side as indicated by the attack direction. For example, if an attack hits the right side, all Side results strike the right side armor. If the vehicle has no turret, a turret hit strikes the armor on the side attacked.

## MOTIVE SYSTEM DAMAGE TABLE

2D6 Roll	EFFECT*
2-5	No effect.
6-7	Minor damage; +1 modifier to all Driving Skill Rolls
8-9	Moderate damage; -1 Cruising MP, +2 modifier to all Driving Skill Rolls
10-11	Heavy damage; only half Cruising MP (round fractions up), +3 modifier to all Driving Skill Rolls
12+	Major damage; no movement for the rest of the game. Vehicle is immobile.

Attack Direction Modifier:	Vehicle Type Modifiers:	
Hit from rear	Tracked, Naval	+0
Hit from the sides	Wheeled	+2
	Hovercraft, Hydrofoil	+3
	WIGE	+4

\*All movement and Driving Skill Roll penalties are cumulative. However, each Driving Skill Roll modifier can only be applied once. For example, if a roll of 6-7 is made for a vehicle, inflicting a +1 modifier, that is the only time that particular +1 can be applied; a subsequent roll of 6-7 has no additional effect. This means the maximum Driving Skill Roll modifier that can be inflicted from the Motive System Damage Table is +6. If a unit's Cruising MP is reduced to 0, it cannot move for the rest of the game, but is not considered an immobile target. In addition, all motive system damage takes effect at the end of the phase in which the damage occurred. For example, if two units are attacking the same Combat Vehicle during the Weapon Attack Phase and the first unit inflicts motive system damage and rolls a 12, the -4 immobile target modifier would not apply for the second unit. However, the -4 modifier would take effect during the Physical Attack Phase. If a hover vehicle is rendered immobile while over a Depth 1 or deeper water hex, it sinks and is destroyed.

### GROUND COMBAT VEHICLE HIT LOCATION TABLE

2D6 Roll	ATTACK DIRECTION		
	FRONT	REAR	SIDES
2*	Front (critical)	Rear (critical)	Side (critical)
3	Front†	Rear†	Side†
4	Front†	Rear†	Side†
5	Right Side†	Left Side†	Front†
6	Front	Rear	Side
7	Front	Rear	Side
8	Front	Rear	Side (critical)*
9	Left Side†	Right Side†	Rear†
10	Turret	Turret	Turret
11	Turret	Turret	Turret
12*	Turret (critical)	Turret (critical)	Turret (critical)

\*A result of 2 or 12 (or an 8 if the attack strikes the side) may inflict a critical hit on the vehicle. For each result of 2 or 12 (or 8 for side attacks), apply damage normally to the armor in that section. The attacking player then automatically rolls once on the Ground Combat Vehicle Critical Hits Table below (see *Combat*, p. 192 in *Total Warfare* for more information). A result of 12 on the Ground Combat Vehicles Hit Location Table may inflict critical hit against the turret; if the vehicle has no turret, a 12 indicates the chance of a critical hit on the side corresponding to the attack direction.

†The vehicle may suffer motive system damage even if its armor remains intact. Apply damage normally to the armor in that section, but the attacking player also rolls once on the Motive System Damage Table at right (see *Combat*, p. 192 in *Total Warfare* for more information). Apply damage at the end of the phase in which the damage takes effect.

‡Side hits strike the side as indicated by the attack direction. For example, if an attack hits the right side, all Side results strike the right side armor. If the vehicle has no turret, a turret hit strikes the armor on the side attacked.

### MOTIVE SYSTEM DAMAGE TABLE

2D6 Roll	EFFECT*
2-5	No effect.
6-7	Minor damage; +1 modifier to all Driving Skill Rolls
8-9	Moderate damage; -1 Cruising MP, +2 modifier to all Driving Skill Rolls
10-11	Heavy damage; only half Cruising MP (round fractions up), +3 modifier to all Driving Skill Rolls
12+	Major damage; no movement for the rest of the game. Vehicle is immobile.

Attack Direction Modifier:	Vehicle Type Modifiers:
Hit from rear	Tracked, Naval +0
Hit from the sides	Wheeled +2
	Hovercraft, Hydrofoil +3
	WIGE +4

\*All movement and Driving Skill Roll penalties are cumulative. However, each Driving Skill Roll modifier can only be applied once. For example, if a roll of 6-7 is made for a vehicle, inflicting a +1 modifier, that is the only time that particular +1 can be applied; a subsequent roll of 6-7 has no additional effect. This means the maximum Driving Skill Roll modifier that can be inflicted from the Motive System Damage Table is +6. If a unit's Cruising MP is reduced to 0, it cannot move for the rest of the game, but is not considered an immobile target. In addition, all motive system damage takes effect at the end of the phase in which the damage occurred. For example, if two units are attacking the same Combat Vehicle during the Weapon Attack Phase and the first unit inflicts motive system damage and rolls a 12, the -4 immobile target modifier would not apply for the second unit. However, the -4 modifier would take effect during the Physical Attack Phase. If a hover vehicle is rendered immobile while over a Depth 1 or deeper water hex, it sinks and is destroyed.

### GROUND COMBAT VEHICLE CRITICAL HITS TABLE

2D6 Roll	LOCATION HIT			
	FRONT	SIDE	REAR	TURRET
2-5	No Critical Hit	No Critical Hit	No Critical Hit	No Critical Hit
6	Driver Hit	Cargo/Infantry Hit	Weapon Malfunction	Stabilizer
7	Weapon Malfunction	Weapon Malfunction	Cargo/Infantry Hit	Turret Jam
8	Stabilizer	Crew Stunned	Stabilizer	Weapon Malfunction
9	Sensors	Stabilizer	Weapon Destroyed	Turret Locks
10	Commander Hit	Weapon Destroyed	Engine Hit	Weapon Destroyed
11	Weapon Destroyed	Engine Hit	Ammunition**	Ammunition**
12	Crew Killed	Fuel Tank*	Fuel Tank*	Turret Blown Off

\*If Combat Vehicle has ICE engine only. If Combat Vehicle has a fusion engine, treat this result as Engine Hit.

\*\*If Combat Vehicle carries no ammunition, treat this result as Weapon Destroyed.

## MISSIONS

**Mission: 3028-01 Debrief**  
**Cover our Landing**  
**Landing Site Beta, Shaula**  
**September 3, 3028**

Sarge greets you in the briefing room on the *Grover's Folly* after the mission. Boy, this whole "At War" thing is weird. You're much more used to meeting up after a mission over beers, but this is much more formal. Hopefully the Cappies cave quickly so the Lyrans can stop invading the Combine so they won't invade the Feds while their pants are down because they're invading the Cappies, and you can go back to business as usual. Wow. Who knew wars could be some complicated?

Of course, when in the history of succession wars has a war gone quickly and according to the plans of whoever started it? The third war lasted roughly a hundred and sixty years, so it seems unlikely that the fourth one will be done any time before 3040 or so...Anyway, despite the formal environment, Sarge seems as frank as ever.

"Good job boys, driving off the Snake's reconnaissance efforts. Keeping them at bay has allowed us to complete our landing operations and establish our beachhead here on Shaula. Now that the rest of the invasion force is off loaded we can press on to our next objective. Go grab some shut eye while we patch up your mechs, as this might be the only rest you get for a while. From what the Lyrans tell us, it looks like the next mission is going to be a tough one."

## MISSIONS

**Mission: 3028-01 Debrief**  
**Cover our Landing**  
**Landing Site Beta, Shaula**  
**September 3, 3028**

Sarge greets you in the briefing room on the *Grover's Folly* after the mission. Boy, this whole "At War" thing is weird. You're much more used to meeting up after a mission over beers, but this is much more formal. Hopefully the Cappies cave quickly so the Lyrans can stop invading the Combine so they won't invade the Feds while their pants are down because they're invading the Cappies, and you can go back to business as usual. Wow. Who knew wars could be some complicated?

Of course, when in the history of succession wars has a war gone quickly and according to the plans of whoever started it? The third war lasted roughly a hundred and sixty years, so it seems unlikely that the fourth one will be done any time before 3040 or so...Anyway, despite the formal environment, Sarge seems as frank as ever.

"Good job boys, driving off the Snake's reconnaissance efforts. Keeping them at bay has allowed us to complete our landing operations and establish our beachhead here on Shaula. Now that the rest of the invasion force is off loaded we can press on to our next objective. Go grab some shut eye while we patch up your mechs, as this might be the only rest you get for a while. From what the Lyrans tell us, it looks like the next mission is going to be a tough one."
